Laminate Flooring

Alfa Wood Master Laminate flooring, is the only flooring produced in Greece. They are high-strength, consisting of HDF core and decorative paper with a resin coating.

The 27 colors (9 Basic Line in thickness 7mm AC3, 4 Classic Line in thickness 8mm AC5-4V Bevel and 14 Elegance Line in thickness 8mm AC5-4V Bevel) capture in the most realistic way all the natural features of a real wooden floor.

The most important advantages of Master Laminate:

- **Durable:** to furniture weight or other heavy objects, to cigarette burns, sharp objects (pointed heels)
- **Light:** laminate flooring is resistant to UV rays and does not decolorize
- **Eco friendly:** it is made of 90% wood, which comes from sustainable forestry practices
- **Anti-allergic:** ensures a space that does not cause allergic reactions
- **Long lasting:** the life of a laminate floor is between 15 to 30 years
- **Appearance:** ideal imitation of natural wood
- **Installation:** easy installation with the patented uniclic system
- Easy **dismantling** and re-installation 2-3 times
- Possibility to replace worn board locally
- Ideal solution for **renovations** due to their small thickness
- Anti-slip

Formaldehyde emission category **E1**

0207 Oak Sunset

Are you looking for a floor that is safe and stylish? Then this laminate is just for you!

The Elegant series of Master Laminate consists of 14 colors and is produced according to the EU standards.

You can live relaxed knowing that you have done the best choice for you home!

0201 Country Oak

AC5 8mm **BEVEL** 4

This floor is inspired by natural oak wood.

The combination of the aged dark oak flooring with the light colored office give a feeling of warmth and a business atmosphere.

The joints give a special elegance to the space.

0202 Montana Oak Allover

AC5 8mm **BEVEL** 4

It will definitely refresh your entire office.
The skirting board provides a perfect finish to the floor.

0305 Country Oak

The modern living room is perfectly highlighted by the laminate oak.

The atmosphere is very elegant thanks to the matte oak shade. This specific choice of laminate will give a super chic result.

8302 Elvezia Grey

When flooring is a key decoration element, this modern shade Elvezia Grey will complement your style!

8502 Elvezia Rovere

The Elvezia Rovere flooring offers a natural feeling with transitions of dark & light wood grains. The texture of the country style, highlights the elegance of the aged wood. Ideal for professional & residential spaces.

8702 Brooklyn Brown

AC5 8mm **BEVEL** 4

The special boards with the dark indefinite touches & roses create a natural authentic result. The design of the board continues almost identical to the previous board, giving extra depth. The coexistence of endurance & romance make your choice unique!

0312 Aquarela Beech

A painting on your feet!

The modern beech beautifully complements your space.

Joints and accessories carefully add to the decoration of your living room.

0206 Kentucky Oak

AC5 8mm **BEVEL** 4

Your modern interior exudes a strong sense of calm.

The combination of soft oak gives the feeling of a warm atmosphere. Long boards add depth to the room and dress your living room wonderfully.

2315 Silver Moon Oak

Give a positive aura to your home!
The striking light oak laminate ensures a clean and pleasant atmosphere.
Visible joints create extra depth in your bedroom.

0900 Merinos Oak

The special boards of this floor were chosen in such a way to combine the modern with the classic elements.

The grains give depth and elegance to the your space.

8201 Genesis Elm

Gray shades are gaining consumer preferences and tend to become the number one choice in professional spaces, but also personal ...

0207 Oak Sunset

You will love the easy installation of your Maser Laminate flooring.

The light oak boards with a balanced mix of dark grains will give a unique glow to your space.

0203

Country Oak Pyrenees

Choosing Country Oak Pyrenees is our suggestion for a busy space, such as your living room. Dust or dirt never accumulates between the joints due to the assembly of the boards with a uniclick system

0304 Delicatessen Oak

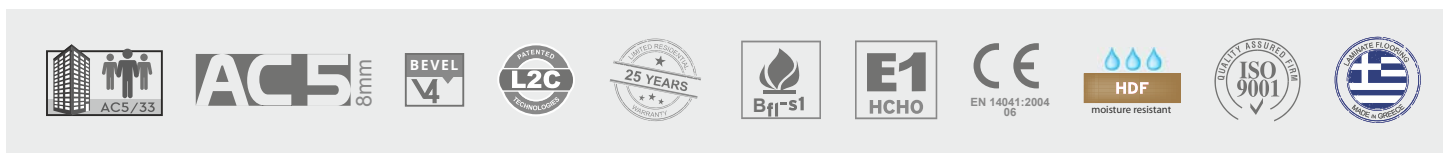

AC5 8mm **BEVEL** 4

Highlight your style by choosing a modern laminate shade. It's the perfect place to start your day.

The joints give depth and intensity to the space.

CLASSIC LINE

The Classic series consists of 4 colors, and is produced according to the official EU standards, with a patented uni click system clasp.

Its surface has an extremely realistic wood effect design, while the 4V-bevel is just as beautiful as the natural material, but is also more affordable and easier to maintain.

0103 White Oak

0104 Grey Oak

0106 Old Oak

2314 Cinquecento Pine

0103

White Oak

AC5 8mm **BEVEL** 4

A light, refined shade, will make your room look more spacious. This statement light-colored floor will gently highlight your decor and your airy bright space.

0104 Grey Oak

Create a shabby chic style in your space with this floor, while at the same time make your space look bigger due to its light shade.

0106 Old Oak

AC5 8mm BEVEL 41

The pattern in combination with its form, characterize the overall appearance of the floor. Dark shades make a space look warmer and are ideal for more traditional homes and businesses.

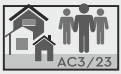

2314 Cinquecento Pine

AC5 8mm **BEVEL** 4

The shade of pine is unique to embrace & add warmth to your space.
The dark spots give an antiquity intertwined with luxury & comfort!

BASIC LINE

Are you looking for a floor that is safe and stylish?
Then this Laminate is right for you!

The Basic series of Master Laminate consists of 9 colors and is produced according to the official EU standards, with a uni click system clasp.

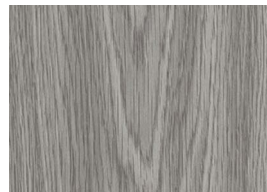

0208 Plateau Oak

2304 White Washed Oak

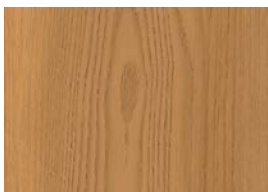

5702 Rovere Classic

2122 Rovere Grey

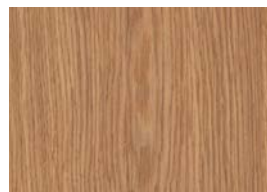

2601 Walnut Classic

0147 Country Oak

2207 Iceland Oak

2307 Marmara Oak

0101 Vintage Oak

0208 Plateau Oak

AC3
7mm

A modern, light-colored floor, which makes your space lighter. Use the same flooring uniformly in all your spaces, so that they look bigger.

2304 White Washed Oak

Unique choice of modern oak shade to "dress" your space. The shade & quality of Laminate White Washed Oak is impressive & ideal for modern spaces.

5702 Rovere Classic

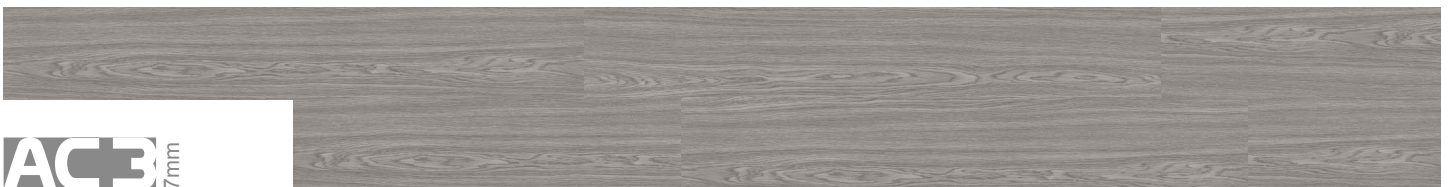

ACB 7mm

A very classic and aristocratic floor, ready to cover the brightest areas of your home. It does not discolor and is the ideal imitation of wood.

2122

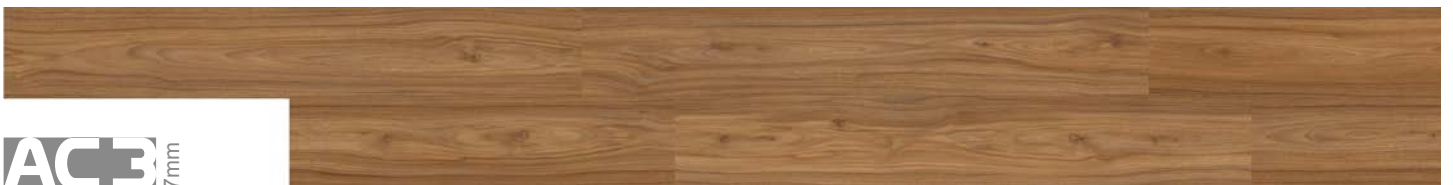

Rovere Grey

AC3
7mm

The gray color is created by combining white with black, so it makes sense to match perfectly with these. Beyond that though, gray combines perfectly with bright colors, creating strong contrasts in the space.

2601 Walnut Classic

AC3
7mm

Whether you are renovating your home or creating one from scratch, this floor will fit perfectly with any style of decor you choose. This floor will bring a natural warmth to any interior, from the bedroom to the living room and from the kitchen to the hallway.

0147 Contry Oak

Classic shade for wood lovers! Ideal solution for homes and businesses that want to give a more traditional hue and will make the occupants or guests, feel more comfortable.

2207 Iceland Oak

When we spend countless hours in our workplace, then our floor should be durable, easy to clean and offer calmness and harmony to guests.

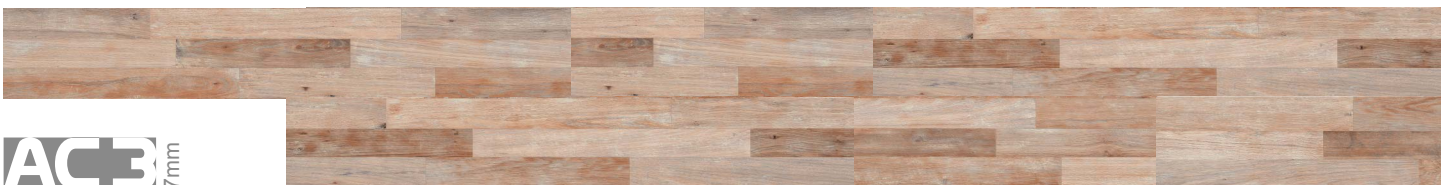

2307 Marmara Oak

ACB 7mm

This oak laminate is ideal for your professional space.
Wonderfu warm color.

0101 Vintage Oak

AC3
7mm

This impressive living room is highlighted by the natural vintage shades of oak. Each board has a special touch, which helps to complete a calm environment.

Par-Ve Flooring

VENEER-WOOD FLOORING
A BEAUTIFUL AND AFFORDABLE CHOICE

AC3 13mm

Par-Ve is a laminate flooring that combines the warmth and unique design of real wood with the advantages of the laminate one.

Par-Ve is as easy to install and maintain. However, there is a big difference: the final layer of Par-Ve is real wood, and not an imitation wood like Laminate. What you see and feel is natural wood. As there are no two identical trees so each board is unique. This is exactly what makes the difference in any space you place it.

The Par-Ve floor highlights the wood, with a very high level of quality.

- Use of excellent quality wood
- Eco choice
- Impact resistance
- Excellent value for money

Engineered Flooring

049 Oak Vital Milky

049 Oak Vital Milky Matt Lacquered

055 Oak Noble Matt Lacquered

056 Oak Vital Matt Lacquered

300 Oak Natur Matt Lacquered

828 Oak Primo Supermatt Lacquered

891 Oak Vital Stardust Matt Lacquered

047 Oak Cottage Berry Bear Matt Lacquered

232 Oak Vital Brandy Dark Matt Lacquered

Engineered floors are the floors of the future and are a good alternative to solid flooring as it has a wider range of dimensions, is durable, can be less expensive and it is very difficult to distinguish between the two once installed.

It is constructed in such a way to provide better stability and resistance to changes in temperature and humidity. The fascinating part is that it looks like solid wood flooring, as the top layer is real, solid wood, but underneath has a panel base (plywood).

ALFAFLOORING

049 Oak Vital Milky Matt Lacquered

Are you looking for a change? The oak vital milky matt lacquered is classic and beautiful, with a subtle color tone that can look just as beautiful in a traditional or modern interior with bright or neutral colors.

055 Oak Noble Matt Lacquered

Oak Noble Matt Lacquered can be perfectly integrated into a modern or traditional home, thanks to its earthy tones.

056 Oak Vital Matt Lacquered

Simply beautiful with a classic charm that will never go out of style. Oak Vital Matt Lacquered is the perfect flooring choice for a variety of décor types.

300 Oak Natur Matt Lacquered

This flooring highlights and adds natural charm to any space that will be used either in the kitchen, in the dining room or even in your bedroom. Gives the appearance of a genuine wooden floor at an affordable price.

828 Oak Primo Supermatt Lacquered

A subtle yellow-honey hue makes the Oak primo super matt lacquered so beautiful while at the same time it is durable and flexible. The glazed finish allows the natural layer of wood to age gracefully and gain more visual depth and complexity as time passes.

With this 3 plank floor you can create a perfect canvas in your home, while its natural warmth will protect you from the demands of a busy daily life and the intense rhythm of urban life.

Dimensions: 2250mm x 190mm x 12,5mm 3-strip

891 Oak Vital Stardust Matt Lacquered

How many times have you imagined having real wood flooring all over your house? With Oak Vital Stardust Matt Lacquered, you can have a floor with soft shades of beige and gray as well as wonderful natural features. Ideal for any decoration, this floor complements both classic or modern interiors.

047 Oak Cottage Berry Bear Matt Lacquered

An undeniably special floor, the Oak Cottage Berry Bear Matt Lacquered has a classic charm and a stunning look that will add a strong visual element to any decor.

232 Oak Vital Brandy Dark Matt Lacquered

Oak Vital Brandy Dark Matt Lacquered is a truly stunning, mediterranean wooden floor. With light brown-chocolate tones and warm golden shades

WPC - Deck

The synthetic Deck WPC (Wood Plastic Composites) outdoor flooring is the ideal solution in areas such as swimming pools, garden terraces etc. Their composition (60% wood - 40% HDPE, adhesives and resins) allows them to combine the advantages of plastic with the beauty of wood.

Durability, elasticity, resistance to moisture, zero maintenance and resistance to abrasion and pests are some of the many advantages of this product.

- ✓ Home and Professional use

WPC - Fence

WPC synthetic fence is now recommended instead of wood due to both the price and the top quality as it does not need the maintenance that wood needs.

Synthetic fence is the future in its field and is increasingly "occupying the hearts" of both professionals and individuals.

Environment

Sustainable Forestry

Our supply chain is centered around the protection of and care about the environment, contributing to the sustainable management of forestry.

Timber is supplied exclusively from controlled sources, verified by the certified government agencies (Forestry divisions/ forestry inspectorates) as well as international organisations such as FSC®. During the production process, we opt for internationally certified management systems such

as quality management, low formaldehyde emission, fire and moisture resistance. ISO 9001: 2015, CE, FSC, CARB, E0, FIRE RETARDANT AND MOISTURE RETARDANT.

• End product reaches the consumer in full transparency, according to the Environmental Product Declaration (EPD), which provides important information on the environmental and health aspects of the manufacturing process for each of our key products.

• All wood processing by-products deriving from the production process, as well as those not suitable for sale, are re-processed and used either for new wood panel production or for biomass energy production, depending on their origin.

• In the meantime, biomass, through the combustion process, generates heat as well as “green electricity”.
