OUR COMMITMENT TO QUALITY ASSURANCE

SAFE AND HEALTHY LIVING ALONGSIDE GREENLAM PRODUCTS

Greenlam Laminates are classified under the Low Emitting Product category when measured for potentially harmful emissions. This is an assurance that our products are ideal for use in interior environments where air quality is vitally important.

GREENGUARD Gold Certification

This certification, with a stricter criteria, means that Greenlam products are suitable for use in environments where children spend significant periods of time, including schools, daycares and healthcare

All Greenlam Laminates are certified by prestigious American body, NSF International, making them the safest laminates for human health. Our surfaces can be used in situations where they will have direct contact with food. "Our surfaces have also been tested in accordance with EC directive 1935 with regards to food safety. Our products were proved fully compliant through testing to the demanding EU Food Commission Regulation 10/2011 with successful testing to BSEN 1186-1:2002, BSEN 1186-3:2002 & BSEN 1186-14:2002".

The FSC® certification is considered the "gold standard" designation for wood harvested from forests that are responsibly managed, socially beneficial, environmentally conscious and economically viable. If a product, like a piece of tropical hardwood furniture, is labeled as "FSC" Certified", it means that the wood used in the piece and manufacturer that made it met the requirements of the Forest Stewardship Council®. Greenlam provides FSC® certified product (Certificate No.: SCS-COC-003328) upon request.
